

Migrate to Azure with confidence

Maximize your Windows Server value with a trusted Microsoft partner

We can help you navigate the complexities of cloud adoption, optimizing your investments and reducing implementation risks to unlock the full value and security capabilities of Azure. Our services include:

- Assessing your infrastructure to understand your existing landscape
- Collaborating with you to develop a cloud adoption strategy
- Implementing and supporting your cloud adoption plan

Bring existing Windows Server and SQL Server licenses to Azure

With Azure Hybrid Benefit, you can maximize your existing investments and transition to the cloud at your own pace

Reduce risk and increase savings across cloud and hybrid environments. Migrate to Azure and get **3 years of free extended security updates** for your 2012/R2 workloads (end of support is 10/10/2023)

Get industry-leading price performance with SQL on Windows Server on Azure

Protect apps, data, and IT workloads in Azure

Windows Server offers comprehensive security with built-in protection in Windows Server VMs and Microsoft Defender for Cloud

- 65 trillion threat signals analyzed daily
- 8,500 security experts

Take advantage of cloud innovations for on-premises workloads

Modernize your workloads with new and improved features on Azure

- Unlock innovation with AI capabilities
- Enable secure remote work by deploying virtual desktops and apps quickly and easily with Azure Virtual Desktop
- Get continuous security assessment of your cloud resources running in Azure with Defender for Cloud
- Gain flexibility and consistency with native .NET support in App Service and Azure Kubernetes Service

Windows Server on Azure is:

Run mission critical Windows Server and SQL Server apps in Azure

Resilient
Backup and disaster recovery you can trust

48%⁵
faster backups

80%⁵
reduction in average recovery time

Efficient
Efficiently run core applications on Azure

160k
IOPS disk storage for your most demanding workloads

Scalable
Scale applications with uncompromised performance

Create and manage up to **1,000** load-balanced VMs in minutes

We can help you plan and implement your cloud migration. Let's connect to start building your migration plan to Azure today
